**Feedback:**
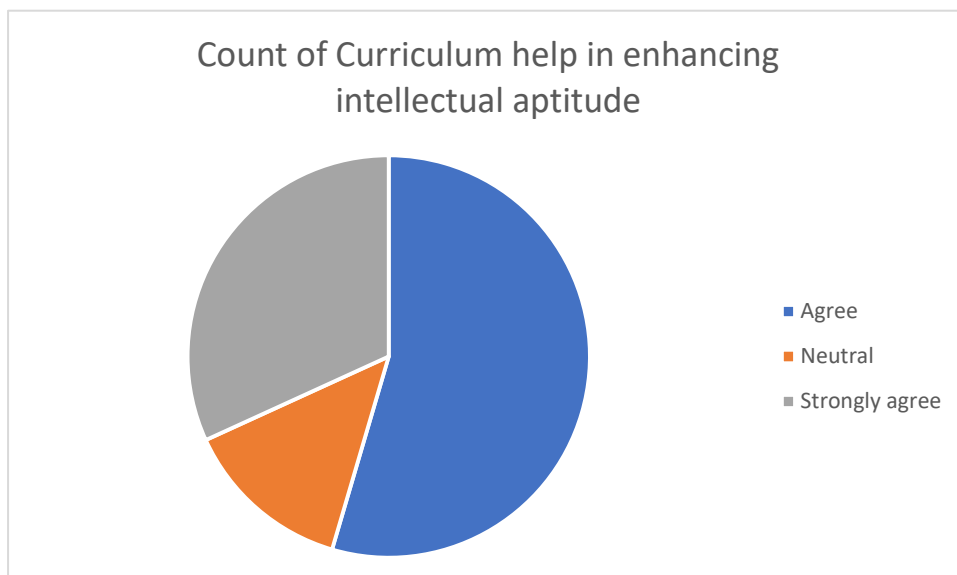

In order to ensure constant growth of the institution and progress of the students we have put an effective feedback mechanism in place that collects, analyses and implements suggestions from the students to make academic, infrastructural and policy improvements in the college. The outgoing students of UG courses are made to compulsorily fill the feedback form. The names of the students are kept anonymous and confidentiality of the whole process is scrupulously maintained .The feedback is collected from the students in a Google form in a standardized format. The form is sent through different what's app groups to the students. The feedback is solicited in academic and non academic areas. This feedback is analyzed to develop the roadmap for the academic year ahead and align the interests of various stakeholders with the institutional interests. Further, departmental level feedback is taken from students to enhance the teaching learning process. The analysis of such feedback is done on an institutional level and in case of any grievance the appropriate department initiates an enquiry and proposes suitable action to be taken by the Principal. The college has also made many infrastructural improvements to provide bigger, better equipped classrooms to the students and fulfil all necessary requirements of space. Feedback of stakeholders like parents of the students , employees are sought regularly about infrastructure and learning resources for ensuring their satisfaction. Accordingly, continuous review of infrastructure and learning resources is carried out by respective academic committee and the recommendations are integrated for upgrading, maintaining and utilizing physical, academic and support facilities. The alumni of the college who have moved on to industry or for higher studies additionally give a feedback on how their years in the institution have helped them perform of their places of work/study. The alumni of the college supply constructive tips on helping the students gain extra recognition and improving themselves.

To summarize the whole process in one sentence we can say that feedbacks are collected, analyzed and action is taken after the publication of report .The feedback reports are available on institution website.
**Feedback from Alumnus(2021-22)**

Count of Curriculum help in enhancing intellectual aptitude

- Agree
- Neutral
- Strongly agree
